Final schedule of electricity network charges 2025-26

Effective 1 July 2025

Evoenergy - Schedule of Electricity Network Charges 2025-26

Rates apply from 1 July 2025 to 30 June 2026

Important information about the ACT Large-scale Feed-in Tariff (LFiT) scheme and Evoenergy's network charges

This schedule of charges presents Evoenergy's 2025-26 network charges. The charges in this schedule include both the network charges approved by the Australian Energy Regulator (AER) and the costs for the ACT Government's Large-scale Feed-in Tariff (LFiT) scheme. The 2025-26 LFiT cost has been applied as an adjustment to the AER's approved charges for 2025-26, equivalent to an additional 1.593 cents per kilowatt-hour (kWh). The LFiT cost has been applied uniformly to the consumption charges (c/kWh) in Evoenergy's tariffs.

This schedule of charges should be read in conjunction with Evoenergy's 2024–29 Tariff Structure Statement, which includes details about Evoenergy's tariffs and tariff assignment policy.

Further information is also provided in Evoenergy's 2025-26 pricing proposal overview document.

* XMC tariffs exclude metering charges.
