

# **Gas network reference tariff schedule for Evoenergy gas distribution network in ACT and Queanbeyan-Palerang**

Effective date: 1 July 2023

## Schedule of Charges

**Exclusive of GST**

**Reference Tariffs**

**Effective 1 July 2023**

Evoenergy

ABN 76 670 568 688

### **OVERVIEW**

In April 2021, the Australian Energy Regulator (AER) approved the access arrangement that will apply to the provision of gas network services by Evoenergy (formerly ActewAGL Distribution) from 1 July 2021 to 30 June 2026. The access arrangement describes the reference services that Evoenergy offers.

In line with the requirements of the access arrangement, reference tariffs from 2022–23 onwards are subject to annual variation of the access arrangement (reference tariff variation mechanism). Annual variations are subject to approval by the AER.

The Australian Capital Territory (ACT) and Queanbeyan-Palerang gas distribution network access arrangement 1 July 2021 – 30 June 2026 is available at <https://www.aer.gov.au>

The reference tariffs in this tariff schedule are as per the AER approved 2023–24 tariffs. The tariffs are expressed in 2023–24 dollars and are exclusive of goods and services tax (GST).

## 1. Initial tariff classes and tariff charge components

- a) A user must pay the service provider all charges applicable to the reference service provided based on the relevant tariff category.
- b) The tables below set out the tariff charge components applicable to each tariff category.
- c) In addition, other charges are payable in accordance with the Reference Service Agreement.
- d) Tariff charge components applicable to each tariff category:

| Customer Category | Tariff Category        | Charge Components                                           |
|-------------------|------------------------|-------------------------------------------------------------|
| <b>Volume (V)</b> | Volume Individual (VI) | Volume Throughput Rate<br>Fixed Charge<br>Ancillary Charges |
|                   | Volume Boundary (VB)   | Volume Throughput Rate<br>Fixed Charge<br>Ancillary Charges |

- e) Demand Tariffs

| Customer Category | Tariff Category        | Charge Components                                                                           |
|-------------------|------------------------|---------------------------------------------------------------------------------------------|
| <b>Demand (D)</b> | Demand Capacity (DC)   | Demand Capacity Rate<br>Provision of Basic Metering Equipment Charge<br>Ancillary Charges   |
|                   | Demand Throughput (DT) | Demand Throughput Rate<br>Provision of Basic Metering Equipment Charge<br>Ancillary Charges |

## 2. Demand tariffs

### 2.1. Demand Capacity Rate

| Unit Rate: Dollars per GJ of Chargeable Demand (CD) per annum (\$/GJ.CD.pa) |                                               |                   |             |
|-----------------------------------------------------------------------------|-----------------------------------------------|-------------------|-------------|
| Period ending 30 June 2024                                                  |                                               |                   |             |
| Tariff Category                                                             | Prices are real 2023–24 GST exclusive dollars |                   |             |
|                                                                             | First 50 GJ of CD                             | Next 100 GJ of CD | \$/GJ.CD.pa |
| <b>DC</b>                                                                   | 345.21                                        | 329.07            | 307.20      |

### 2.2. Demand Throughput Rate

| Demand Throughput Rate: \$/GJ                 |       |
|-----------------------------------------------|-------|
| Period ending 30 June 2024                    |       |
| Minimum chargeable quantity of 833 GJ/month   |       |
| Prices are real 2023–24 GST exclusive dollars |       |
| <b>DT</b>                                     | 4.419 |

### 2.3. Provision of Basic Metering Equipment Charges

| Standing Charge: \$/pa per Delivery Station              |            |              |                       |                        |                 |
|----------------------------------------------------------|------------|--------------|-----------------------|------------------------|-----------------|
| Charges based on Delivery Point MHQ                      |            |              |                       |                        |                 |
| Period ending 30 June 2024                               |            |              |                       |                        |                 |
| Prices are real 2023–24 GST exclusive dollars            |            |              |                       |                        |                 |
| Tariff Category                                          | Meter Type | MHQ <16GJ/hr | MHQ >=16 to <50 GJ/hr | MHQ >=50 to <100 GJ/hr | MHQ >=100 GJ/hr |
| <b>All Tariff Categories for the Demand Tariff Class</b> | Single Run | 8,851        | 12,169                | 18,624                 | 24,081          |
|                                                          | Double Run | 17,702       | 24,339                | 37,248                 | 48,161          |

| Standing Charge: \$/pa per Delivery Station              |                                                                                         |       |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------|-------|
| Period ending 30 June 2024                               |                                                                                         |       |
| Tariff Category                                          |                                                                                         | \$/pa |
| Prices are real 2023–24 GST exclusive dollars            |                                                                                         |       |
| <b>All Tariff Categories for the Demand Tariff Class</b> | More than 15 Delivery Stations installed at the Delivery Point [closed to new entrants] | 2,126 |

### 3. Volume tariffs

#### 3.1. Volume Throughput Rate

| Tariff Category                               |              | Volume Throughput Rate: \$/GJ |                        |                       |                  |
|-----------------------------------------------|--------------|-------------------------------|------------------------|-----------------------|------------------|
| Block Size                                    |              | Period ending 30 June 2024    |                        |                       |                  |
| Prices are real 2023–24 GST exclusive dollars |              |                               |                        |                       |                  |
| VI                                            | (GJ/month)   | <b>First 1.25 GJ</b>          | <b>Next 13.45 GJ</b>   | <b>Next 45.30 GJ</b>  | <b>Remainder</b> |
|                                               | (GJ/quarter) | <b>First 3.75 GJ</b>          | <b>Next 40.35 GJ</b>   | <b>Next 135.90 GJ</b> | <b>Remainder</b> |
|                                               | \$/GJ        | 14.087                        | 7.500                  | 6.661                 | 6.413            |
| VB                                            | (GJ/month)   | <b>First 37.50 GJ</b>         | <b>Next 372.00 GJ</b>  | <b>Remainder</b>      |                  |
|                                               | (GJ/quarter) | <b>First 112.50 GJ</b>        | <b>Next 1116.00 GJ</b> | <b>Remainder</b>      |                  |
|                                               | \$/GJ        | 12.624                        | 7.349                  | 6.740                 |                  |

#### 3.2. Fixed Charge

| Tariff Category                               |  | Standing Charge: \$/pa per Delivery Station |
|-----------------------------------------------|--|---------------------------------------------|
|                                               |  | Period ending 30 June 2024                  |
| Prices are real 2023–24 GST exclusive dollars |  |                                             |
| VI                                            |  | 77.62                                       |
| VB                                            |  | 841.88                                      |

## 4. Ancillary charges

| Ancillary Charges applicable to all Tariff Categories            |                                                                                                                                                                                                                                                                                      |
|------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Period ending 30 June 2024                                       |                                                                                                                                                                                                                                                                                      |
| Prices are real 2023–24 GST exclusive dollars                    |                                                                                                                                                                                                                                                                                      |
| Activity                                                         | Charge                                                                                                                                                                                                                                                                               |
| Hourly Charge – non-standard User-initiated requests and queries | \$117, plus \$117 per hour after the first hour                                                                                                                                                                                                                                      |
