

Evoenergy Information Register

Date of Update: 30/09/2026

This register is intended to be a living document and is maintained and made publicly available in accordance with clause 4.3.4 of the Ring-fencing Guideline for Electricity Distribution (Version 4).

Date	Legal Entity	Type	Approved/ Declined	Description of Information Requested
<i>Please provide the date of the request.</i>	<i>Please provide the name of the legal entity requesting the information.</i>	<i>Please provide information on the type of legal entity.</i>	<i>Please state whether the request for information was approved or declined.</i>	<i>Please provide a description of the information requested by the legal entity*.</i>
6 December 2023	ActewAGL Retail	Energy Retailer	Approved	Aggregated consumption and export volumes per 30 minute intervals per day for FY23 for small customers in the ACT. Deemed non-ringfenced and non-confidential information identical to data provided to and partially published by the ICRC for regulatory purposes.
6 March 2025	Environment, Planning and Sustainable Development Directorate	ACT Government	Approved	Data estimates around remediation works associated with the installation of smart meters for the LMRP. Including the number, geographical location and age of households requiring a legacy meter replacement. Provided: Count of legacy meters per suburb as of January 2025. Information did not contain any specific customer data, was broad in nature.
7 April 2025	ActewAGL Retail	Energy Retailer	Declined	Detailed network data to support an Expression of Interest (EOI) for the Australian Renewable Energy Agency's (ARENA) Community Batteries Funding Round 2. The request included a list of 30 constrained distribution substations in the ACT, along with technical and financial details to assess the suitability for community battery installations. The request was declined and instead, a publicly available document was shared with ActewAGL Retail, which is accessible via Evoenergy's website

*The description of the information must be sufficient detail to enable other legal entities to make an information decision about whether to request that kind of information from the DNSP.
