

# Application for electricity network connection or alteration

## Development details

Suburb: ..... Block: ..... Section: .....

Street address: .....

<p><b>Type of work</b></p> <input type="checkbox"/> New connection <input type="checkbox"/> Alteration <input type="checkbox"/> Removal <input type="checkbox"/> Temporary supply <input type="checkbox"/> Consumer mains cable connection	<p><b>Premise type</b></p> <input type="checkbox"/> Residential Number of units: .....	<p><b>Key dates</b></p> Construction start ..... / ..... / .....
<p><b>Embedded generation</b> (Refer to note)</p> <input type="checkbox"/> 1 Phase <b>OR</b> <input type="checkbox"/> 3 Phase Capacity: ..... kW	<input type="checkbox"/> Commercial/industrial Offices: ..... m <sup>2</sup> Retail: ..... m <sup>2</sup> Car park: ..... m <sup>2</sup> (provide details in MD calcs for car parks) Warehouse: ..... m <sup>2</sup> Other: ..... m <sup>2</sup>	Construction completion ..... / ..... / .....
<p>Note: Applicant to submit a Special Connection Request on the Evoenergy website to initiate the embedded generation connection process.</p> <input type="checkbox"/> Rural		Earliest Evoenergy commencement date ..... / ..... / .....
		Evoenergy required completion ..... / ..... / .....
		Power required ..... / ..... / .....

Calculated maximum demand (detailed maximum demand calculations must be attached, see notes overleaf)

	A	B	C
<b>Removed load</b>			
<b>Existing load</b>			
<b>Additional load</b>			
<b>Total Load</b> (of completed installation)			

**Details of the request** (provide attachment if insufficient space): .....

**Any known environmental or site access constraints** (provide attachment if insufficient space): .....

## Application attachments

|--|---|
| <input type="checkbox"/> Single line diagram attached          | <input type="checkbox"/> Soil Resistivity Test Report attached (where Substation proposed within block boundary)      |
| <input type="checkbox"/> Site plan attached                    | <input type="checkbox"/> Detail Site Survey and Geotechnical Report (where Substation proposed within block boundary) |
| <input type="checkbox"/> Consumer mains cable details attached |   |
| <input type="checkbox"/> Maximum demand calculations attached  |   |
| <input type="checkbox"/> Approved DA attached                  |   |

## Customer details

Name: .....

Company: ..... ABN: .....

Postal address: .....

Telephone: ..... Mobile: .....

Fax: ..... Email: .....

**Electrical contractor details** (if applicable)

Name: ..... Licence number: .....  
Company: ..... ABN: .....  
Postal address: .....  
Telephone: ..... Mobile: .....  
Fax: ..... Email: .....

**Consultant details** (if applicable)

Name: .....  
Company: ..... ABN: .....  
Postal address: .....  
Telephone: ..... Mobile: .....  
Fax: ..... Email: .....

**Additional information**

This form must be completed in full before being accepted by Evoenergy. Permanent supplies will not be actioned from temporary supply applications (a second application form must be submitted for the permanent supply). Completed forms are to be submitted by mail, email or in person. Where applicable detailed maximum demand calculations must include the following details. (Note: withholding this information may result in delays in responding to this request.)

Type of development (office, warehouse, industrial etc.).	Information on load management system (if applicable).	Any seasonal factors, i.e. seasonal variation of load.
Timing of the development. If the development is to proceed in stages, the timing for all stages.	Duty cycle of any large equipment or duty cycle of an industrial process.	Main factors affecting level of demand.
Net useable floor area, gross floor areas and their proposed usage.	Details of any substantial intermittent and fluctuating loads.	Removal of any part of an existing installation.
Type of heating and cooling (gas, electric, etc.).	Details of any large single phase loads.	Any planned future augmentations or upgrades.
A list of the load components of the proposed installation with their maximum demands, diversity factors, etc.	Details of any loads likely to cause substantial harmonics.	Any on site emergency backup arrangements.
	Details of any loads which are likely to have poor power factors.	Details of large starting motors and voltage drop limitations.

**Enquiries** Who should we contact if we require more information.

Name: ..... Contact number: .....

**Applicant**

Subject to and in accordance with the National Electricity Rules, I understand and agree that by signing below and submitting this application to Evoenergy.

- I am applying for a connection offer to connect to Evoenergy’s electricity network under a negotiated connection contract.
- Evoenergy may charge a reasonable fee to cover expenses associated with assessing this connection application and subsequently making a connection offer.
- Any confidential information of Evoenergy disclosed during the course of negotiations must be kept confidential.
- Evoenergy will use its best endeavours to make me a connection offer within 65 business days of receiving this application.
- This form does not constitute an offer and does not commit Evoenergy to providing any goods or services.
- I warrant that I am authorised to execute this application on behalf of the connection applicant.

Name: ..... Signature: ..... Date: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

Evoenergy invoices should be sent to:

- Customer       Contractor       Consultant

**Submission**

Send completed form by email to [network.connectionapplication@evoenergy.com.au](mailto:network.connectionapplication@evoenergy.com.au) or via mail or in person at Networks Connections Team, 28 Oakden Street, Greenway ACT 2900. For more information call 13 23 86.
